EDUCATION

Cabanatuan City Integrated School
Primary School
2006 - 2017

College
Secondary School
2017 - 2021

Phinma Araullo University
Bachelor of Science in Information Technology
2021-2024

TECHNICAL

- Frontend Development
- Backend Development
- SQA Testing
- UI Designer
- Graphic Designer
- Database Design
- Microsoft Office

PERSONAL SKILLS

- Communication Skills
- Problem Solving
- Teamwork

Objective

Dedicated to analyzing and designing system solutions that improve processes and user experience. Committed to providing clear insights and effective communication among stakeholders, ensuring smooth integration of technology for better efficiency and business growth.

Experience

Eurasia Research Pharma Corporation
San Leonardo, Nueva Ecija | Internship

Web Developer | July - September 2024

This system tracks product vouchers, payments, and expenses, including the bank for transactions and who processed and approved payments. Technologies used include React, Vite, Tailwind, and MongoDB.

uTest

SQA Tester | September - PRESENT

Conducted manual testing for 2 websites, 1 mobile app, and 1 web app, and to identify bugs and usability issues.

PROJECTS

EYESMILE DENTAL & OPTICAL CLINIC MANAGEMENT SYSTEM

Developed a web-based application to manage a dental clinic's operations, including patient records, appointment scheduling, billing, and treatment history of tooth including a dental charting of the patients. The system also includes an inventory system for the dental supplies and medicines. The system provides a user-friendly interface for doctors, staff, and patients, ensuring efficient clinic management and a better patient experience. Implemented secure login functionality and a role-based access control system to safeguard sensitive data.

Technologies: HTML, CSS, Bootstrap, JQuery, JavaScript, PHP, MySQL

VOUCHER DISBURSEMENT MANAGEMENT SYSTEM

The system facilitated the tracking of product payments, including the approval process, bank details, and the companies being paid. Users could view the type of product paid for, the associated pharmaceutical company, and the payment status.

Technologies: React Vite, Tailwind, Node.js, Express.js, MongoDB

AREAS OF EXPERTISE

Languages
- HTML
- CSS
- JavaScript
- PHP
- Python

Tools
- GitHub
- VS Code
- Chrome DevTools
- Postman
- Trello

Frameworks/Libraries
- React Vite
- Bootstrap
- Tailwind
- Flask
- Express.js

Design
- Figma
- Canva

Hosting Platform
- Hostinger
- Netlify
- Render

ACHIEVEMENT

SALESFORCE
Double Star Ranger and Admin Superset Badge
